

**ATTENTION, RIDERS:**

## **Exciting Upgrades Are Coming to Jefferson Parish Transit Buses!**

**Beginning September 20, 2026**, JP Transit will begin upgrading its **Smart Bus System**. During the transition, riders may experience limited access to certain features through the end of the year.

*The following features will be temporarily unavailable:*

- Live bus tracking through the JP Transit Bus Tracker app and website
- Automated announcements of major intersections on buses

During this period, bus operators will **verbally announce major intersections** along their routes. To minimize service interruptions, buses will be upgraded on a rolling basis, rather than all at once.

*Once the upgrades are complete, riders will have access to a convenient, all-in-one mobile app that will provide:*

- Simplified trip planning
- Real-time bus tracking
- Text-message alerts when a bus is running late

For route maps and schedule information during the transition, please visit **JPTransit.org** or call the **Ride Line** at **504-248-3900** or **504-818-1077**.

**Thank you for your patience as we complete this exciting upgrade!**

*For additional information, please contact JP Transit Administration at [jefftransitinfo@solutient.com](mailto:jefftransitinfo@solutient.com).*
